Skills

- C# | .NET | ReactJS | Python | JavaScript | SQL | Unit Testing | Lambda | OOP | Entity Framework
- Azure | Cloud | CI/CD | Git |
- Microservices | Frontend | Backend | Full-Stack | English (B2), Spanish

Experience

FullStack Developer

NTTData

Buenos Aires,
Argentina

08/2021 - to
present

- Engineered new functionalities and implemented fixes on industrial applications using ReactJS and .NET Core across various plants for key clients.
- Participated on a critical migration from React Class Components to React Hooks for an application serving world-class metallurgical factories.
- Implemented development within a microservices architecture, creating novel .NET and React applications with Continuous Integration (CI) in Azure DevOps.
- Proficient in applying agile methodologies, particularly with Scrum, to drive efficient and collaborative project execution.
- Proven track record in collaborative team environments, demonstrating strong communication and interpersonal skills.

Backend Developer

TLC Innovation

Buenos Aires, 03/2019 - 08/2021
Argentina

- Engineered and implemented ASP.NET applications facilitating seamless integration between company and client solutions through ADO.NET integration.
- Formulated and executed SQL queries for extracting and updating commercial data within relational databases.
- Pioneered the enhancement of features in industrial business applications, encompassing both front-end and back-end development, complete with manual testing and comprehensive app documentation.
- Spearheaded and executed cutting-edge SAP integration initiatives leveraging .NET, API REST, and SOAP for consumption and creation.

Education

Bachelor of Software Development

Iniversidad Técnica Nacional

Buenos Aires, Arg 08/2018 -to present

- Extended a hiatus following the initial semester and resumed studies in 2023

Certificated Courses

- **Web Develop - Coderhouse:** Fundamentals of Web Development: HTML, CSS, and Bootstrap (08/2021)
- **JavaScript - Coderhouse:** Introduction to the language and creation of simple web app (10/2021)
